SUMMARY

- Skilled in front-end and back-end web development, delivering responsive, user-friendly applications.
- Proficient in HTML, CSS, JavaScript, and modern frameworks; focused on clean, accessible design.
- Collaborative team player with Agile experience, dedicated to high-quality, efficient project delivery.

TECHNICAL SKILLS

- **Languages:** Html, Css, Bootstrap, JavaScript,
  JavaScript Library(Gsap, Scroll Trigger, Locomotivejs), php.
- **Databases:** MongoDB, Mysql.
- **Technologies**: GitHub, MS office(word, Excel, Power point)

EXPERIENCE

HIRE4ITES PVT. LTD.   **Mansarovar, Jaipur.**
Web Development Experience (PHP, CodeIgniter)   *January 2024 – December 2024*
- Delivered comprehensive end-to-end web development solutions, involving multiple full-cycle projects, within a dynamic, fast-paced environment equivalent to a year's worth of experience.
- Designed responsive and visually appealing user interfaces using modern front-end technologies (HTML, CSS, JavaScript), ensuring seamless user experiences across devices.
- Developed robust server-side functionality with PHP and MySQL, including dynamic data handling, user request processing, and efficient database management.
- Engineered and optimized MySQL databases, focusing on scalable data storage and efficient retrieval for real-world applications.
- Collaborated effectively in a team-oriented workflow, frequently troubleshooting issues, maintaining open communication, and consistently delivering projects on time.

EDUCATION

Barkatullah University Institute of Technology (BUIT), Bhopal (Madhya Pradesh).   **Madhya Pradesh, India**
Degree: Master of Computer Applications (MCA)   June 2021 – June 2023

UNIVERSITY OF RAJASTHAN   **Jaipur, India**
Degree: Bachelor of Computer Applications (BCA)   May 2017 – May 2020

PROJECTS

- **Sculptasse.com:** Developed Sculptasse, a responsive fitness-focused website, handling both front-end and back-end development. Utilized HTML, CSS, and JavaScript for an interactive user interface, and implemented PHP with MySQL for robust backend functionality and secure data management.
- **Hire4seo:** Focused on front-end development, creating custom interactive tools, and using GSAP for smooth, visually engaging animations to elevate user experience. Tech Stack: PHP, HTML, CSS, JavaScript, GSAP.
- **Instagram Clone:** Developed both the front-end and back-end of a social media web app, implementing post creation, editing, and deletion features, as well as user authentication and authorization. Used MongoDB for efficient data management. Tech Stack: HTML, CSS, Bootstrap, JavaScript, Node.js, Express, MongoDB, Multer.
- **VS Code Clone:** Focused on implementing routing and file management functionalities, enabling users to create, edit, save, and rename files and folders within the web app interface.
  Tech Stack: HTML, CSS, JavaScript, Node.js, Express.
- Award Websites (Bownds Ranches, Chilly-s Bottles, Boy-Coy) : Designed the entire front-end for these responsive award websites, enhancing user experience with smooth animations and seamless scrolling effects using GSAP, ScrollTrigger, and LocomotiveJS.
  Tech Stack: HTML, CSS, Bootstrap, JavaScript, GSAP, ScrollTrigger, LocomotiveJS.

ACADEMIC ACHIEVEMENTS

- CodeBite Hackathon, Bhopal (2023): Bhopal, 2023: Successfully completed with a certificate of achievement.
